

ARHAM STEEL INDUSTRIES LLC

PRODUCT CATALOGUE • UAE STEEL & INDUSTRIAL SOLUTIONS

Complete steel solutions for construction, industrial and infrastructure projects.

GI PIPES

Premium quality galvanized steel pipes manufactured with excellent corrosion resistance and superior durability.

Specifications: Thickness: 0.60 – 3.20 mm | Length: 6 Meter | OD: 21.30, 26.90, 33.40, 42.30, 48.30, 60.30, 75.30 mm

Applications: Construction; Scaffolding; Fencing; Fabrication; Structural Projects

MS PIPES

Manufactured using premium hot rolled steel suitable for structural and fabrication work.

Specifications: Thickness: 0.80 – 3.20 mm | Length: 6 Meter

Applications: Steel Structures; Fabrication; Industrial Projects; Construction

HR TUBES

Square and rectangular hot rolled tubes.

Specifications: Square: 19×19, 25×25, 30×30, 38×38, 40×40, 50×50 mm | Rectangular: 40×20, 50×25, 60×40, 80×40 mm | Thickness: 0.70 – 3.20 mm | Length: 6 Meter

Applications: Steel Fabrication; Gates; Warehouses; Buildings; Industrial Structures

CR TUBES

Precision cold rolled tubes suitable for high-quality fabrication.

Specifications: Thickness: 0.60 – 2.50 mm

Applications: Furniture; Office Equipment; Steel Fabrication; Automotive; Interior Decoration

GI COILS

Premium galvanized steel coils.

Specifications: Thickness: 0.30 – 3.00 mm | Width: 600 – 1500 mm

Applications: Pipe Manufacturing; Roofing; Steel Fabrication; Sheet Production

GI SHEETS

Galvanized sheets with custom cut sizes available.

Specifications: Thickness: 0.30 – 3.00 mm

Applications: Roofing; Wall Cladding; Industrial Buildings; Steel Fabrication

PPGI COILS

Pre-painted galvanized steel coils available in multiple RAL colours.

Specifications: Thickness: 0.20 – 0.68 mm | RAL 9016; RAL 9002; RAL 1001; Custom Colours Available

PPGI PROFILE SHEETS

Profiled pre-painted galvanized sheets.

Specifications: Profile: 35/200 | Thickness: 0.20 – 0.60 mm

Applications: Roofing; Warehouses; Industrial Buildings; Villas; Sheds

HR COILS

Hot rolled coils.

Specifications: Thickness: 0.90 – 3.00 mm

Applications: Pipe Manufacturing; Tube Manufacturing; Steel Fabrication; Structural Steel

HR SHEETS

Hot rolled sheets with custom sizes available.

Specifications: Thickness: 0.90 – 3.00 mm

U CHANNELS

U channels for support and fabrication.

Specifications: Standard: 30 × 40 × 30 mm | Thickness: 0.40 – 3.00 mm | Custom Sizes Available

Applications: Cable Trays; Support Frames; Fabrication; Structural Steel

SLOTTED CHANNELS

Heavy-duty slotted channels for industrial support systems.

Specifications: Thickness: 0.80 – 3.00 mm

Applications: Solar Structures; Cable Management; Electrical Supports; Mechanical Installations; Industrial Projects

GI DECKING SHEETS

Galvanized decking sheets.

Specifications: Thickness: 0.80 – 2.00 mm

Applications: Composite Slabs; Warehouses; Industrial Buildings; Commercial Buildings

GI GRATING

Galvanized grating systems.

Specifications: Thickness: 1.00 – 2.50 mm | Standard: 200 × 6000 mm | Custom Sizes Available

Applications: Walkways; Platforms; Drain Covers; Industrial Flooring

STORAGE SYSTEMS

Customized storage solutions including steel racks and industrial storage systems.

Specifications: Customized

Applications: Warehouses; Factories; Logistics; Industrial Storage

MANUFACTURING FACILITY

Production Lines: Tube Mill • Pipe Mill • Slitting Line • Decoiling Line • Shearing Line • Profile Sheet Line • GI Grating Line • Decking Sheet Line • Slotted Channel Line • Packing Line • Quality Inspection Line

INDUSTRIES WE SERVE

Construction • Infrastructure • Oil & Gas • Warehousing • Manufacturing • Engineering • Agriculture • Government Projects • Steel Fabricators • EPC Contractors

QUALITY CONTROL

Raw Material Inspection • Thickness Verification • Dimensional Accuracy • Zinc Coating Test • Surface Finish Inspection • Packing Inspection • Final Quality Approval

EXPORT MARKETS

United Arab Emirates • GCC Countries • Africa • Middle East • South Asia
